## RMSEs (IMPORT_KW) for test data using RNN

RMSE values for test data (IMPORT_KW) using RNN
from houses with numbers 3, 9, 11, 13, 17, 28, 45, 48, 57
and 60 for a period of one week (seven days) with a
mean value of 0,373 where the data is divided in 83.2%
training- and 16.8% test data.

RMSEs (EXPORT_KW) for test data using Polynomial Regression

RMSE values for test data (EXPORT_KW) using
Polynomial Regression from houses with numbers 3, 9,
11, 13, 17, 28, 45, 48, 57 and 60 for a period of one week
(seven days) with a mean value of 0.36 where the data is
divided in 83.2% training- and 16.8% test data.
